CULTURAL GUIDE FOR CACTI AND OTHER SUCCULENTS

CULTURAL GUIDE

Cacti and succulents are natives of arid regions, so try to maintain desert conditions; dry atmosphere, **PLENTY OF LIGHT** and not much water. They can go long periods without water.

Watering Instructions: Set pot in saucer of water for $\frac{1}{2}$ minute, or just long enough for water to rise to top of pot. Do this once every ten days. Water very sparingly in winter.

REPOTTING: Remove all soil from roots, prune roots to $\frac{1}{2}$ their previous length. Plant in a mixture of equal parts of good garden loam and **COARSE** sand. Very little fertilizer, if any, is required. Rank growth is not desirable.

IT PLAYS DEAD! Put it in water and it opens up into a rich, beautiful green plant in a few minutes. When dry, curls up into lifeless ball. **ONLY 25¢**

I hope the plants reach you in perfect condition. If they do not, please let me know and I will replace any plants that do not arrive in good order. In your display of cactus you'll have all the beauty and romance of the great Southwest. As you look at each cactus, you may think of yourself in the fascinating region of the Colorado River mounted on a western pony gazing at the Mojave Desert wonders. You'll dream of long arms of giant cactus reaching upward into the brilliant sunshine—crowns of white waxen blossoms shining pure against a brazen sky. You may see yourself in southern Arizona where an Organ Pipe cactus stands on a rocky hillside; of Indians gathering its delicious fruit for syrup and wine; or of a warm August evening with a mocking bird whistling from the topmost branch of a rare night-blooming Cereus

Our guarantee is for safe delivery only. We cannot undertake to make good plants lost through improper care. If for any reason plants are not received in good condition we will give credit for damaged items if notified at once. Satisfied customers are our best asset.

IF SO, WE INVITE YOU TO

TEST AND PROVE VITA-VIMS

AT OUR RISK AND EXPENSE!

THE foods you eat may satisfy your hunger... but fall far short of supplying the real life elements your body must have if it is to be a truly healthy body, radiating vitality, energy, strength, vigor and genuine aliveness!

A recently published article gave the astounding estimate that 90% of our total population, more than 140,000,000 people, are suffering from some degree of malnutrition because the foods they eat in this modern age have, through soil impairment and too-modern methods of processing and preparing, been deprived of so much of their life-giving, life-sustaining elements... the natural vitamins and minerals nature supplied so lavishly in the foods of the pre-modern ages!

On this important subject, the U. S. DEPARTMENT OF AGRICULTURE YEAR BOOK OF 1939, page 104, says:

"The chief fault of many American diets is that they provide too little of the essential minerals and vitamins. This fault is due in large measure to the fact that refined foods are consumed in such amounts that the intake of mineral vitamin-rich natural foods is lower than it should be."

In this fast-moving age people simply will not, or cannot, eat correctly. So, modern science has come to the rescue of the human race in developing food supplements to aid in combatting vitamin-mineral deficiency in the natural and processed foods in present-day diets.

OPPORTUNITY MAGAZINE comments in this wise in its issue of September 1950:

"JUST WHAT ARE FOOD SUPPLEMENTS? Food supplements are carefully prepared products scientifically compounded to provide adequate nutrition in our diet. Food supplements are not 'health foods', medicinal compounds, or cure-alls. They are life-giving food elements necessary to the welfare of the human body. A man may live without them but he won't be really alive, and he won't love living. **** The ideal food supplements for general use are not this or that vitamin, but a scientifically balanced compound, including minerals. **** Each (balanced compound) con-

tains the combination of vitamins and trace minerals which authorities say are needed to offset the nutritional deficiency in present day foods. Some of these products contain as many as 28 vitamins and minerals, as well as other nutrient factors."

VITA-VIMS are 28-Ingredient ALL-In-One Tablets!

It is our privilege and pleasure to offer our friends and customers a vitamin-mineral product that we do not hesitate to endorse without qualifications. VITA-VIMS, the all-in-one tablet of guaranteed hi-potency, each tablet containing 14 VITAMINS, 10 MINERALS, Iron, Calcium, Phosphorus, Iodine, plus LIVER, YEAST, WHEAT GERM OIL... and also NOW containing the wonderful "Red" VITAMIN B12, described at length in a feature article in the February 1950 issue of READER'S DIGEST!

If you feel the need of a more-normal vitamin-mineral intake... if you are short of the high mark of perfection you would so like to reach in energy, ambition, vitality, vigor and genuine aliveness... we invite you to give VITA-VIMS a trial, testing and judging their value for yourself, on this no-risk-on-your-part basis:

Take VITA-VIMS 2-a-day for ten days. If at the end of that time, you do not feel better, look better, sleep better, and have a definitely noticeable betterment of energy and general fitness, just return the bottle and unused tablets, notifying us, and get an immediate refund of your purchase money in full, including the return postage!

WILL YOU TRY VITA-VIMS ON THAT NO-RISK BASIS

That's the story, friends. We are not trying to sell you a cure-all or a "patent medicine". We are offering a guaranteed quality vitamin-mineral product, on a guaranteed satisfaction-or-money-back basis. The label on the bottle shows the exact make-up of each tablet as given also on this circular... in full compliance with government requirements.

The price is just \$3.00 for a 30-day supply; \$7.50 for a 90-day supply. We hope it may be our pleasure to serve you.
